

Presenter	Poster title
Nicolas Jardillier	Capping Electron Core Potential as link atoms : Methodology and Application.
Giovanni Morales	Static Modeling of Ketene Dimerization Reaction using ADF
Victor Manuel Medel Juárez	Conformational Analysis of the naturally occurring α -amino acids
Serguei Patchkovskii	Evidence of intramolecular dynamics in X-ray adsorption spectra of high density amorphous ice
Jan Andzelm	TDDFT study of silicon phthalocyanine
Ruslan Kevorkyants	Modelling behavior of amphiphils in water
Helio Anderson Duarte	Structure and Dynamics of B-cyclodextrin and Ang1-7 in aqueous solution at quantum-mechanical level
